

Youth Access to Tobacco

Compliance Inspection Results Final Results of Fiscal Year 07/08

Report Contents and Explanation

Raw SYNAR Inspection Results

Section 1 - Chart of compliance rates by stratum and the counties therein.

Re-Inspection and State Inspection Results

Section 2 - Chart of the overall compliance rates for these non-Synar inspections.

SYNAR Inspection Results by Outlet - Federal law dictates that Montana must reach an 80 percent compliance rate in order to retain Federal Block Grant Treatment Funds. Compliance is measured by conducting unannounced inspections of 575 randomly selected, licensed tobacco merchants annually. We use a federally approved process for every aspect of these inspections.

Section 3 - Synar Inspection Final Results for Fiscal Year 07/08 - Complied by County and City

Section 4 - Synar Inspection Final Results for Fiscal Year 07/08 - Violations by County and City

Re-Inspection Results by Outlet - As part of the state's commitment to lower the rates of sales to minors, re-inspections are conducted at up to 50% of the outlets found in violation during the random unannounced inspections. These inspections are not included in the Synar Compliance Rate calculation.

Section 5 - Re-Inspection Final Results for Fiscal Year 07/08 - Complied by County and City

Section 6 - Re-Inspection Final Results for Fiscal Year 07/08 - Violations by County and City

State Inspection Results by Outlet - The state conducts inspections that are not included in the Synar Compliance Rate calculation. This is another strategy employed to lower the rate of sales to minors.

Section 7 - State Inspection Final Results for Fiscal Year 07/08 - Complied by County and City

Section 8 - State Inspection Final Results for Fiscal Year 07/08 - Violations by County and City

Reward and Reminder Survey Program - This educational program covers 49 Montana Counties. It's purpose is to remind merchants who appear to be ready to make a sale not to sell tobacco to minors while giving a reward to merchants who indicate they would have refused the sale. Reward and Reminder can be credited with helping raise merchant awareness of Montana code to its current level. On average, over 4050 survey visits are conducted each year through this program.

Section 9 - Reward and Reminder Results through Tuesday, October 21, 2008

Raw Synar Inspection Results

Year to date through 10/21/2008

Fiscal Year 07/08

Stratum and Counties	Number of Violations	Number of Compliances	Compliance Rate (80%+ Target)
Stratum 10 Yellowstone and Treasure Counties	0	64	100.00%
Stratum 20 Missoula County	0	52	100.00%
